About

I love technology and get genuinely excited about innovations.
For over 7 years, I have been committed to developing reliable, high-quality applications and services. I strongly believe in collaboration and sharing ideas to foster continuous improvement and shape the future.

Work Experience

Mindshine Technologies ·

Full-stack Developer (Dec 2023 - Present)

Project:
— TIVA will search for the answers in your SIS/LMS/Transportation and other systems and will show you the answers.
No more logging into the systems and navigating/configuring reports — just ask TIVA.
Work with data using a Natural Language and Artificial Intellect.

· Responsibilities
— · Development of the client and server parts of the application;
— · Assisting with technical direction and best practices;
— · Troubleshoot and debug to optimize performance;

· Communications & soft skills
— · Collaborate with team to define, design, and ship new features;

I have used:
JavaScript · TypeScript · React · RxJS · Ramda · Node.js · MongoDB · PostgreSQL · RPC · Docker · Ansible · Cube, etc.

RocketParts ·

Senior Software Engineer (Oct 2023 - Nov 2023) · 2 mos

Project:
— Fully managed, out-of-the-box, Software as a Service (SaaS) platform for enabling payments to your customers.
Save months of custom development and high costs. Get started with just a few days of integration.

· Responsibilities
— · Developing user interfaces;
— · Assisting in product strategy;
— · Assisting in prioritizing the product backlog;
— · Assisting with technical direction and best practices;

· Communications & soft skills
— · Participating in scoping, stand-up, and grooming meetings;

I have used:
JavaScript · TypeScript · React · Tailwind · Tanstack · Node.js · Express · Prisma · PostgreSQL · RPC (tRPC) · Docker · Doppler · GitHub · Turbo · GCP, etc.

Andersen ·

Full-stack Developer (Sep 2022 - Mar 2023) · 7 mos

· Responsibilities
— · Analyzing requirements, planning, identifying necessary resources, and conducting risk analysis;
— · Designing server-side architecture;
— · Developing efficient APIs;
— · Decomposition and estimation of tasks (epics, stories, features);
— · Exercising control over the deployment, delivery, and code sharing processes;
— · Ensuring adherence to security rules, and maintaining quality assurance for existing code;
— · Maintenance of documentation;
— · Code review.

· Communications & soft skills
— · Direct client communication;
— · Facilitating cross-team integration communications;

I have used:
JavaScript · TypeScript · React · Redux-Toolkit · Node.js · Nest JS · Salesforce · JSforce · SOQL · RESTful · Axios · Docker · GitHub · AWS stack · Make (makefiles), etc.

RS School ·

Mentor (Oct 2020 - Dec 2023) · 3 yrs 3 mos

— Teaching students the fundamentals of software development using JavaScript and its associated environment;
— Organizing weekly meetups with student groups to answer questions and share experiences;
— Checking and evaluating student work, conducting training interviews, and delivering additional lectures.

Anadea ·

Full-stack Developer (May 2021 - Sep 2022) · 1 yr 5 mos

Projects:
— An eco-system that provides all the necessary tools to assist the leadership, teachers and students in focusing on their learning and development journey.
The platform offers a learning experience that is dynamically optimized to suit for your purposes.

— The platform that is a market-leader at generating professional-grade questions, answers and metadata from all kinds of content.

· Responsibilities
— · Designing client-side and server-side architectures;
— · Decomposition and estimation of tasks (epics, stories, features);
— · Creating complex, dynamic interfaces with intricate logic and dependencies;
— · Developing efficient APIs;
— · Managing databases;
— · Ensuring cross-platform optimization & test coverage;
— · Maintenance of documentation;
— · Code review.

· Communications & soft skills
— · Direct client communication;
— · Facilitating cross-team integration communications;
— · Conducting technical interviews;
— · Mentoring.

I have used:
JavaScript · TypeScript · CSS · HTML · React · Redux · Formik · Styled-components · Node.js · Nest JS · PostgreSQL · RESTful · Axios · Docker · Dokku · GitHub · AWS stack, etc.

Intelico ·

Frontend Developer (Feb 2020 - May 2021) · 1 yr 4 mos

Projects:
— Fully customizable, turnkey solution for end-to-end lead generation.
Used to capture, validate, and distribute leads in real-time through a convenient SaaS.

— A Point-of-Sale Multi-Lender Financing Solution.
It connects in-store customers to lenders offering buy now pay later options.

· Responsibilities
— · Decomposition and estimation of tasks (epics, stories, features);
— · Developing complex, dynamic interfaces with intricate logic and dependencies;
— · Ensuring cross-platform optimization & test coverage;
— · Maintenance of documentation.

· Communications & soft skills
— · Facilitating cross-team integration communications;
— · Conducting technical interviews;
— · Mentoring developers.

I have used:
JavaScript · CSS · HTML · React · Redux · Bootstrap · Basic REST · Atlassian stack, etc.

Freelance ·

Full-stack Developer (Feb 2017 - Feb 2020) · 3 yrs 1 mo

Projects:
— A platform that enables betting on personal and other matches in online games.
Earn money with your gaming skills. Play. Bet. Win.

— Website offering audio guides for the Spanish island of Lanzarote.
Unleash Lanzarote's beauty with our audio guides.
Explore, learn, and enjoy the island's treasures at your fingertips.
Let our guides be your perfect travel companion.

— A platform for renting construction equipment and specialized machinery.

· Responsibilities
— · Product requirements analysis & tech-solution proposal composition;
— · Roadmap composition & commitment;
— · Designing client-side and server-side architectures;
— · Developing complex, dynamic interfaces with intricate logic and dependencies;
— · Developing efficient APIs;
— · Managing databases.

· Communications & soft skills
— · Direct client communication.

I have used:
JavaScript · CSS · HTML · React · Redux · WordPress · Node.js · Express · MySQL · Apache Server · Basic REST, etc.
